

Mind-Mesh Test Document

This is a test PDF document created for the Mind-Mesh file upload and summarization system.

Features of Mind-Mesh:

- File upload support for multiple formats
- Text extraction from PDF, DOCX, PPTX files
- OCR technology for image text extraction
- AI-powered summarization using Gemini API
- Multiple summary styles (short, medium, long, bullets)
- Support for multiple languages

This PDF contains structured content that should be extracted and summarized effectively by the system.

The system processes documents in real-time and provides detailed metadata including processing times, file information, and extracted text statistics.
